

Positively *IMPACTING* every child, every day.

4/3/24

To whom it may concern,

We have been so blessed to have Huntington Learning Center working with us this year to support our middle school math students. Each part of this process has been so open and the communication has been very thorough. The team worked quickly to start these groups and to maximize the time spent with them. They have also been extremely flexible with us and have helped to set up a schedule to make sure all the students involved get as much support as possible. Their willingness to work with us and our sometimes, crazy schedules has been so professional and thorough. Our students have benefited tremendously from the support in math skills.

The Huntington teachers that have worked directly with our building have been very supportive, on time and actively teaching. They have been friendly and kind with staff and students. They have really become a part of our Cornerstone Family. They know the students well and work diligently to support them where they are and to facilitate and focus on growth.

We have been honored and delighted to work with the staff, administration and teachers from Huntington and have found it to be a very positive experience. They have provided much needed support that is often difficult for us to provide at the school level. It was such a good experience, I wish that we could have more students involved in this opportunity. I hope that we can continue this partnership year after year. This service meets such a critical need at our building. We are truly grateful for the support and the team effort that has benefited our students.

We look forward to continuing to work with Huntington.

Sincerely,
Hollie Brofford
