Hi Scott,

I just wanted to reach out and express my appreciation for the partnership this year. I was impressed with how easy it was to integrate Huntington tutoring services for our students within the school day. I was expecting to have to do a lot more logistic support, but your staff really owned the program and helped make it effective and sustainable for our staff.

The feedback our principals received from students and families has been overwhelmingly positive as well.

I hope we find a way to financially sustain the program in future years.

Have a great week!

Sincerely,

Mike Robertson
