To Whom It May Concern,

Please consider this letter my resounding recommendation for The Huntington Learning Center. They have been supporting the reading and math needs of our middle school students through the High Dose Tutoring Grant this school year. It has been an absolute pleasure to work with this team of educators and we very much value their hard work and support.

The members of the Huntington Team have consistently been flexible, detailed and professional. One of the things I love the most about working with this organization is that they have created a genuine partnership with our team and our students. Although they started out as solely members of the Huntington Team, we truly consider them a part of the Imagine Schools family, as well.

We have observed the tutoring staff not only working diligently with our students on their academic needs, but also building strong, trusting relationships that foster confidence and self-worth. You can visibly see and feel how much they care about our students and we know they want to see them experience life-long success. In addition to the amazing tutoring staff, the administration team from Huntington is equally as fantastic. They communicate regularly, are supportive to the needs of the school and overall have brought so much positivity to our campus.

It has just been a pleasure to work with this group and we hope to continue a lasting relationship with this team. We would highly recommend them to any school or organization looking to do what's best for students and their families.

Sincerely,

Kathryn Kountz
Principal
Great Western Academy
